‘Fannie Louise Maphis Var’

*Front cover photo taken by
J. D. Thomerson*

Fannie Louise Maphis is a Reticulata Hybrid (Suzanne Withers x Delta Dawn) originated and registered by Hulyn Smith in 2008. It is a Very Large, Semidouble to Rose Form Double that blooms Midseason. It is very vigorous in growth and resists dieback that plagues many reticulatas. It was named in honor of Randolph Maphis’s mother.
