## *About the Cover*

This is the variegated form of 'WILL SUMMERSSET,' a seedling produced by the Pioneer Greenhouse grower of camellias in the Columbia area. Mr. Will Summersset has entered this lovely soft pink seedling in a number of shows, having won the seedling class in several shows with it, and always coming away with at least a blue ribbon. The variegated form was voted the best seedling in the North Florida Camellia Society Show at Jacksonville on December 6, 1964.
